# OPLOFT®

[posturite.co.uk/oploft](https://posturite.co.uk/oploft)

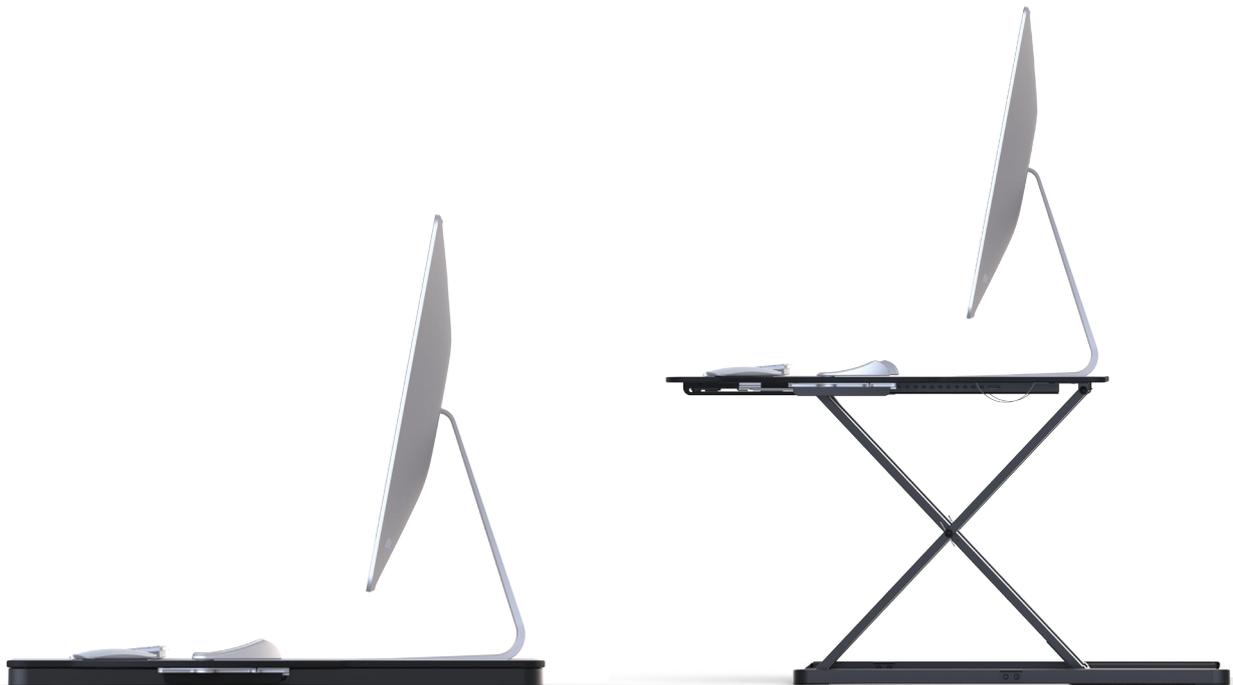

Sitting down all day is bad for health and bad for productivity. Stand up periodically to break out of those natural slumps.

# Meet Opløft.

The sit-stand platform that goes where you go.

Finally, a desk made for modern life. We're going faster and further than ever before, so why should we be stuck in our seats? Opløft is half the weight of its rivals and perfectly proportioned to be moved between any surface anywhere. The Opløft philosophy is to be free and agile: change postures, change environments and be prepared to adapt to the tasks you're carrying out. After all, to adapt is to survive.

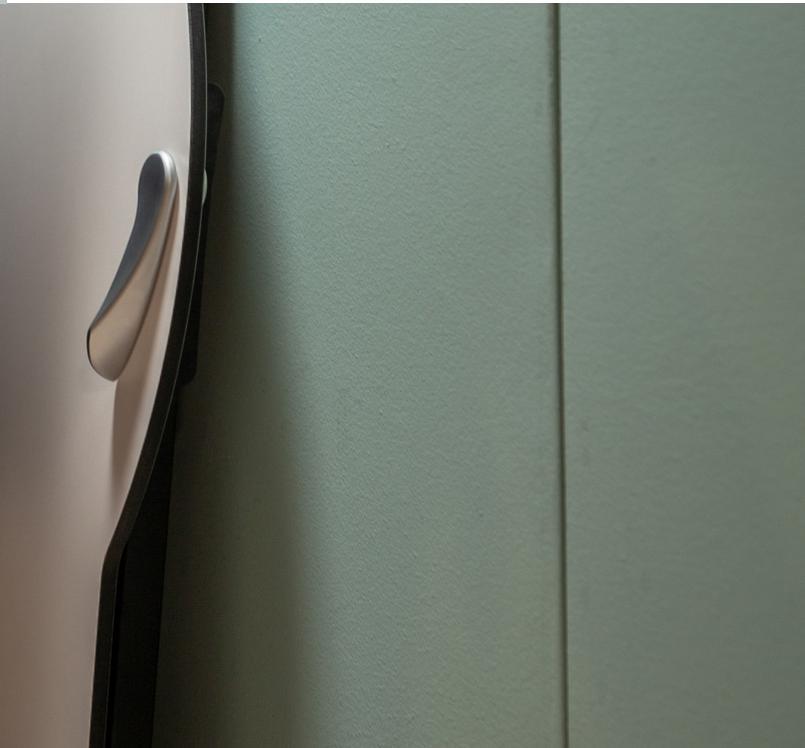

## Freedom to sit or stand

Opløft is a revelation in sit-stand desk design. It's our most portable model yet, beautifully slim and light without compromising on quality or stability. It's taken many months of reengineering and perfecting to take it from its kickstarter prototype to what it is today: a thing of beauty, and a gateway to a whole new mode of working.

## It goes where you go

In its flat position, Opløft is just 30 mm thick and weighs 12 kg, making it possible to carry between hot-desks, store neatly away, or pop in your car when you leave the office to work from home.

## Fits any environment, beautifully

Opløft stays true to its Scandinavian heritage. That means purity, simplicity and minimalism - intelligent engineering concealed within a seamless framework. The result is a sit-stand platform that fits any environment, from a hot-desk in an office, to your dining room table at home.

“We wanted to create something that wasn’t just functional, but portable and attractive too. For centuries we have gone to work. Now, thanks to portable technology and the Internet, work goes with us. Opløft is a product of this concept. It is the first sit-stand platform designed especially for agile workers.”

**Ian Fletcher-Price**  
CEO, Posturite

## Opløft boosts mood and productivity

We teamed up with brain scientists at University College London to find out how sit-stand desk use affected the cognitive functioning of typically sedentary office workers.

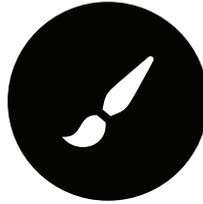

**The results were conclusive, showing that Opløft use can improve:**

Decision-making skills

Concentration and vigilance

Creativity

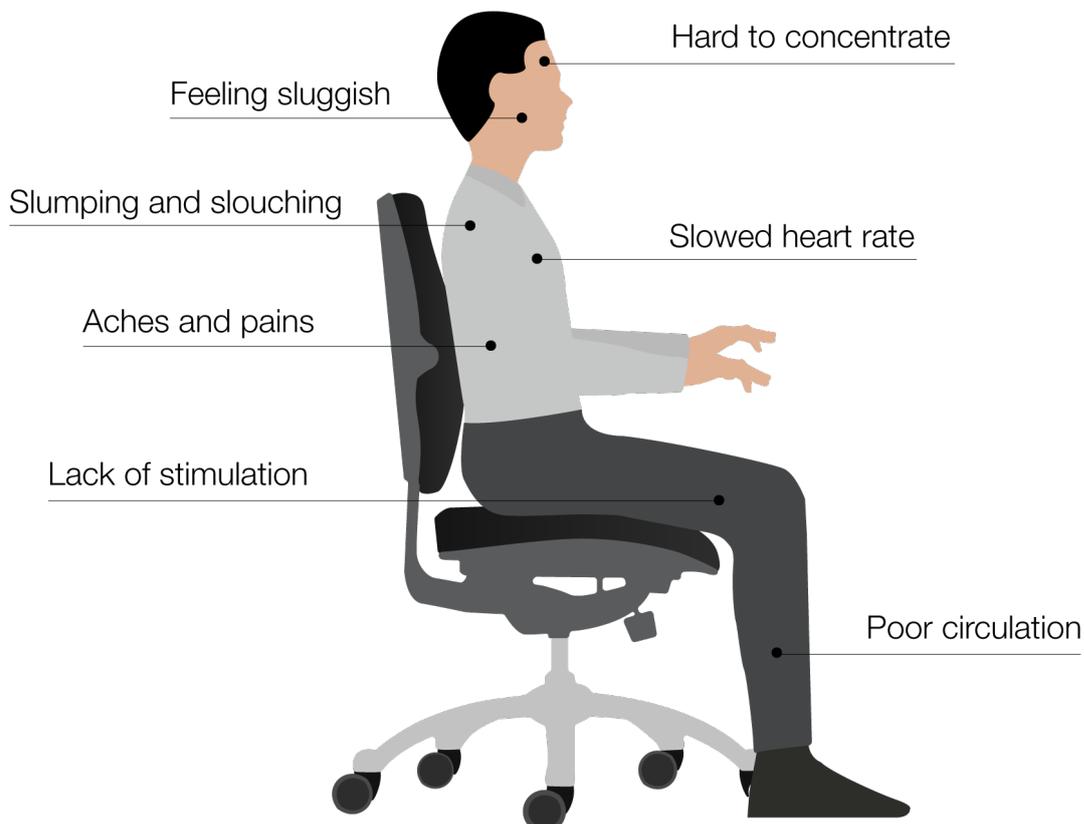

Positivity

Verbal fluency

## Life shouldn't be static - so start a movement

# Technical Data

## Specification

White

Maximum weight capacity: **12 kg**

**14** height adjustment levels

**12 MONTH GUARANTEE**

Product dimensions (WxDxH)	780 x 600 x 30 mm
Lift range (top surface)	30-420 mm
Minimum desktop/table surface required (WXD)	800 x 620 mm
Top surface forward protrusion when fully raised	180 mm
Weight	12 kg
Maximum weight capacity	12 kg

## Monitor Arm for Opløft

Add an optional monitor arm to your Opløft to elevate your screen above the surface easily and securely. Find the perfect height, tilt and angle to reduce the risk of musculoskeletal disorders. Secure it in seconds for a monitor that moves with your desk as you sit and stand throughout the day - great for comfort, ergonomics and productivity.
